Answer a question using your voice

AnatomyTOOL uses so-called [H5P](#) questions.

They are a new type of questions with a lot of interaction possibilities that can be easily created and adapted, played in any web browser and on mobile (they're HTML5) and look pretty.

 Download  Embed

Moreover, H5P questions can be easily downloaded, shared and reused on another H5P enabled platform. With all its media and interactions included in it. A downloaded .h5p file is a kind of zip package that is open for inspection or modification.

H5P is [open source](#), free, and has an active community.

H5P [was developed](#) on request of the Norwegian National Digital Learning Arena.

These characteristics make H5P an ideal format to build a commons of anatomical questions, created, shared and used by many.
